Bessie is heading out to Navajo today to work with Yolanda on monitoring and tracking dw-related efforts on Navajo. This will be helpful, given the large number of questions regarding water supply needs of Navajo communities both in AZ and UT. Have been in contact with R8 drinking water program to relay and receive information.

Donald:

I hope the tour goes well. I'm sorry we couldn't arrange something more complete.

Please send us the emergency declaration by the President that was issued today.

Look forward to our call tomorrow.

Per our conversation earlier today....
